wanted. Do not fail to get our
quantity prices before buying.
We will always save you money.*

HIGGINSON, ARKANSAS

GENERAL INFORMATION

SHIPPING DIRECTIONS—Give explicit directions for marking and shipping stock. In case no directions are given, we will ship the cheapest and most direct route by freight, unless it is deemed safest and best to ship by express. In all cases, the shipments will be at the risk of the purchaser, and, if delay or loss occurs in transit, the forwarders alone must be held responsible.

Orders may be accompanied with a check, draft, postoffice, or express money order for the amount. If neither can be obtained, enclose currency in registered letter with order, or if C.O.D. wanted, send 25 per cent cash with order and other will be sent C.O.D. and to enable you to get your order out early, send it in now; this to apply to early orders. After shipping season begins we will be able to ship promptly on receipt of your order.

ERRORS—Customers are requested to send notice at once of any error that may be made in filling their orders so that it may be rectified and explained.

ARTICLES BY MAIL—Packages of small articles can be sent by mail, for the convenience of those who cannot be reached by railroad or express.

THE SHIPPING SEASON—There can be no definite time specified for beginning to ship, either in the spring or fall. That is regulated by the opening of the season—early or late—and by the ripening of the stock in the fall; as the season for planting is not regulated so much by any particular month or day, nor by the state of vegetation, but more particularly by the condition of the trees to be planted. It is therefore better that orders be sent in early so that stock can be shipped or delivered at the proper season in good condition.

We replace all stock that dies first year at half price, if customer has taken reasonable care of it.

Further, it is mutually understood by purchaser that no salesman has the authority to change terms of replacement other than herein given, and for replacement on terms listed, the customer is to notify the Company at Higginson, Arkansas, by letter, giving such information as they may request from time to time, and that the replacement cost is to be paid in advance of shipment, all replacements to be F.O.B. Nursery, Higginson, Arkansas, in season following agreement on goods to be replaced.

GUARANTEE OF GENUINENESS

While the greatest diligence and care to have all trees, etc., true to label will be expressed, mistakes may occur, and in such cases, upon proper proof, the trees, etc., will be replaced free of charge, or the amount paid refunded, the method is to be at our option. replacement of goods or refund amount paid for them, but it is mutually understood and agreed to between the purchaser and ourselves that the guarantee of genuineness shall in no case make us liable for any sum greater than that originally paid for the Trees, Shrubs, Roses, Seeds, Plants, etc., that prove untrue.

CHOICE PEACH TREES

THRIFTY — HEALTHY — THEY GROW

MAYFLOWER — A "red-all-over" peach; handsome, good of splendid quality. Fine for home orchards and finds ready sale on the market. Not so good for commercial orchards as Early Wheeler, but should be in every home orchard. Ripens in May; semi-cling.

EARLY WHEELER—The most profitable peach grown for commercial purposes. The fruit is large, very handsome, a clear cream overspread with crimson; cling; ripens in June.

same as Early Wheeler
RED BIRD — A fine early peach; bright glowing red. Flesh juicy, firm and most delicious peach flavor imaginable. Tree hardy and vigorous. Ripens in June.

GOLDEN JUBILEE—A high quality early freestone peach, a typical Elberta type fruit, highly colored, ripening about four weeks before the regular Elberta, a second generation seedling of the Elberta, peach is a medium to large size and firm. Early, yellow, freestone peach.

MURRAY'S BEAUTY—A high quality peach, early ripening, just after the Early Wheeler—Red Bird peach, tree very hardy, buds will resist winter freezes better than Elberta, Early Wheeler and others, a good shipper, fruit medium to large, yellow, semi-cling. Try some of them and they will please you. Murray's will make a crop when other varieties fail.

ARP BEAUTY—Yellow, with bright blush; a firm juicy and excellent peach of unusually good flavor; freestone, ripens the last of June, early July.

MAMIE ROSS—One of the most widely planted of the white peaches in the South. It is extremely hardy and very productive. Semi-cling, ripens ten days before Elberta, cream-colored, often marked with red. Skin tough, good quality.

HILEY—Freestone, white; a large white peach, with beautiful red cheek, flesh is juicy, tender; a good shipper, when properly handled; should be in every orchard.

BELLE OF GEORGIA—The best white peach for home and commercial planting. Ripens a week before Elberta. This is the famous Belle of Georgia; freestone, of splendid quality, very large, showy.

ELBERTA—The most widely known of all peaches. Very attractive in appearance, large size, deep yellow splashed crimson, perfect freestone, ripens in midsummer. Can be grown profitably in the North, South, East and West. Tree very vigorous and highly productive.

CHAMPION — Freestone, white with red cheek. Large size, juicy, sweet and delicious. Bears young and the tree is very vigorous. July and August.

RED HAVEN—A good peach, brilliant red and beautiful yellow skin is smooth, almost fuzzless, resembling J. H. Hale in color, skin and flesh very firm and fruit ripens uniformly. Tree is very vigorous with heavy bud set and bears young. You will be pleased with this early peach.

HALE HAVEN—One of the best of its season. A product of the South Haven Experimental Station of Michigan. Ripening

about the time of Hiley; yellow, freestone, a good shipper. You will make no mistake in planting this peach.

ROCHESTER—A yellow freestone variety, ripening about August. Fruit is large, yellow, sweet, juicy and of delicious flavor; keeping and shipping well.

J. H. HALE—It averages one-third larger than Elberta, ripens about five days earlier. Color a beautiful golden-yellow. Freestone.

CHINESE CLING—Oblong, creamy, occasionally tinged red; juicy, ripe in July and August. Well known, popular, good for home orchards and nearby markets.

EARLY ELBERTA—A clear yellow freestone, good quality of the Elberta family, ripening about one week to 10 days in advance of regular Elberta, medium to large size fruit heavy, should be thinned for best results.

ELBERTA CLING—Like Elberta, except that it is a cling. It is a seedling of Elberta, large, yellow, round with a bright red cheek. Good for eating and especially fine for pickling, canning and preserving.

INDIAN CLING—Fruit large, dark brown with deep and red veins, downy, flesh dark red, juicy and of rich flavor; an old standard sort, cling, August.

HEATH CLING—An old favorite. Large, creamy white, thin skin, white, flesh, very firm. Fine for preserves and pickling. Ripe in August.

KRUMMEL'S OCTOBER—The most prolific and best late yellow freestone, which ripens about two weeks after Salway, or about six weeks after Elberta. Large, almost round, deep yellow with a dark carmine blush, very firm, fine texture.

ONE-YEAR-OLD JUNE BUD PEACH TREES

Buy 100 or more of these peach trees listed here. You will find them to be clean stock, State inspected, that will please you in every way; whole root budded trees, all of a good commercial grade of the \$10.00 per 100 trees. They will be nice, clean little trees, about one foot high, with good cultivation will come into quantity bearing the third year from planting or just as soon as the larger ones will, but to get them in when planting will take just a little more personal attention per tree. Of course the \$18.00 per hundred trees are larger and so are the \$22.50 per hundred ones. All are good stock, and will please you. Order now while you can get them at this price.

P L U M S

(WHOLE ROOTS)

DAMSON—A medium sized, dark purple variety which is very productive; esteemed for preserving and good for eating out of hand. Ripens late August to early September.

ABUNDANCE—One of the most dependable of the plums. Bears year in and year out. Large size, cherry red; firm and sweet; carries well. Middle of June.

BURBANK—Extremely popular in all sections. Richly colored red mottled and dotted with yellow; a very heavy bearer. Ripe in July.

GOLD—An old favorite. Medium size, golden yellow when ripe, quality good. Very heavy bearer, ripens late.

RED JUNE—One of the most popular of the early plums. A dark color showy and attractive, excellent quality. Tree hardy and a sure bearer.

WICKSON—Large, heart-shaped; bright red, with heavy blooms, flesh yellow melting and good. Tree an upright vigorous grower. July.

WANETA—Cross between Terry and a Japanese plum. Regarded as the largest and best all around newer sorts. Bright red, delicious quality, small pit, skin free from acerbity; very productive and an early bearer, often producing fruit 2 inches in diameter. This is Prof. Hansen's masterpiece in plums and you will make no mistake in planting them liberally. Mid-season.

SAPA—Skin green, then turns black and the flesh is royal purple. Delicious as a fresh fruit and excellent for preserves and jelly. Good shipper. Mid-season.

POOL PRIDE—An old time variety, medium size, red color, good for cooking, a heavy producer, ripening mid-summer. You will like it.

A P P L E S

LODI—Early yellow fruit, one of the best for market and home use, ripening with or a few days earlier than Yellow Transparent. A good shipper.

RED JUNE—One of the best early apples for table and market. Medium, deep red, flesh white, crisp, excellent. June.

YELLOW TRANSPARENT—Widely known and well liked; large size; transparent yellow. Quality good; crisp, sub-acid, and very fragrant; an excellent cooker; fruit tender and requires careful handling. Tree bears young and is of rather dwarfish growth; is extremely hardy. June.

EARLY HARVEST—Medium, bright straw color; tender, sub-acid; fine dessert and cooking apples. Must be handled very carefully for market. June.

RED ASTRACHAN—Medium, flat, deep crimson, occasionally

greenish yellow in the shade, flesh white, moderately juicy, flavor quite acid, rich, very productive. July.

SUMMER QUEEN—A good apple for home use, ripening mid-summer, medium to large, red, more or less firm, a good summer apple.

HORSE—A popular Southern apple, large, oblong, yellow, fine for cooking and drying. July.

MAIDEN BLUSH—Large, beautiful, blush cheek. Summer.

TOLMAN—Medium yellow and red, rich, sweet. The most valuable apple for baking, and otherwise fine. Summer.

DELICIOUS (Red)—A very remarkable apple, it is agreed, both for commercial and home orchards. Fruit large, neatly covered with brilliant dark red, flesh fine grained, crisp, and melting, juicy, with a delightful aroma, of very highest quality. A splendid shipper, bearing annually.

DELICIOUS (Yellow)—A very remarkable apple, it is agreed by many, by far the best apple of the two delicious varieties. You will find the trees to grow off better, more quickly coming into bearing. Within a very short time it will be producing a crop of beautiful yellow apples, that will bring good prices on the market and you will be pleased with them in every way. Don't fail to plant heavily of our Yellow Delicious.

GANO—Large, roundish, oblong, very similar in every respect to Ben Davis, but of a rich red color. Largely planted in commercial orchards in the Southwest. September.

GRIMES—A golden yellow apple that is an old favorite over the United States on account of its beauty and size. The tree is very productive and long lived, a splendid variety for commercial planting as well as for home orchards. September.

WEALTHY—Medium size, smooth, round, deep red, handsome and of fine quality. October to November.

ARKANSAS BLACK—Dark red, almost black, medium to large size, of very attractive appearance, one of the best. September to October.

BEN DAVIS—The well-known standard variety. Medium to large, yellowish covered with red; flesh white, tree vigorous and productive. September.

JONATHAN—One of the surest varieties, it never disappoints. A brilliant red, with spicy flavor; a favorite with all lovers of juicy, acid apples. Highly profitable for markets and a splendid variety for the home orchard. Ripe in September. Bears young and is very prolific.

GOLDEN WINESAP—A fine new yellow apple, but will do well any place the old time Winesap is grown. The fruit is some larger than the old Winesap; good keeper and should be widely planted.

DUTCHESS (Red)—Of the same strain old time Dutchess, but will ripen up, and have beautiful red color, that is pleasing and will make a ready saleable fruit; will keep well and easy to handle. Every home and commercial orchard should plant them.

STAYMAN WINESAP—The largest of the Winesap family. It resembles the Winesap in color, being striped and splashed with

dark crimson, although the color is not quite so brilliant. It is larger in size than the old Winesap and of better quality. For table use, Stayman Winesap is one of the best apples grown. Late Fall.

WINESAP—One of the oldest of American apples and still increasing in favor. Its size, color, and particularly its quality have given it the well-deserved popularity it has enjoyed. It is of medium size, vivid red, with a highly satisfying flavor. It is one of the best keepers of all apples. It is an all-purpose apple and a good one. September.

MISSOURI PIPPIN—Large, mostly red, good quality; an early bearer and good keeper. Fall.

YORK IMPERIAL—An attractive red apple with faint stripes of darker red; good quality, crisp, and of fine texture. The tree is long lived and bears freely and regularly. Succeeds well in the Southwest. September and October.

MAMMOTH BLACK TWIG—Large, yellow, shaded red, flesh pale yellow, tender, juicy, mildly subacid, rich; tree vigorous and very productive when at full bearing age. A good seedling of Winesap, succeeding over a wide range. September to November.

ROME BEAUTY—Large, yellow, shaded red, tender, juicy, subacid. A leader in the Ohio District. Fall.

JONATHAN (Double Red)—A new type of the old time Jonathan apples having all of the good parts of the old time ones; trees very much alike, in growth, habits, and all with deep double red added to its good qualities, is the description that has been passed on to us.

PEARS

GARBER—Should be planted in the South where other pears will not grow, especially in connection with the Keifer. The Garber is a large yellow pear with red cheek. It keeps remarkably well and is a splendid shipping pear. August.

BARTLETT—Large, buttery, juicy, highly flavored, great bearer; very popular. August and September.

LE CONTE—Medium, bell-shaped, smooth; creamy yellow with slight blush; fresh crisp, sweet and juicy. Tree a rapid grower and a young and prolific bearer, but more subject to blight than most varieties. Ripe in July.

KEIFER—The best known of all pears. Very large; yellow; successful everywhere. Should be gathered when matured and allowed to ripen in storage. Tree very vigorous, resisting blight; ornamental and immensely productive. Garber should be planted with Keifer to insure best pollenizing. August and September.

DOUGLASS—Medium size, smooth, golden yellow with slightly rusty cheek; flesh tender, mellow when fully ripe, juicy and rich. It is considered the equal of Bartlett which has always been considered the peer in quality. The tree bears quite young, often fruiting the first year after planting, and is highly resistant to blight.

	Each	10	100
2-3 ft.	\$1.00	\$9.00	\$80.00

F I G S

MAGNOLIA—Large, purple violet of the Adriatic class; flavor excellent; bears on one-year stem. Largely grown in commercial orchards.

BROWN TURKEY—Adriatic; medium; violet brown; sweet and good. Has the habit of bearing on the new shoots, even in the nursery row.

CELESTIAL—Makes large trees; hardy farther north than most other varieties. Small, pale-violet fruit, fine flavored, very early, commencing to ripen in June and continuing two months.

	Each	10	100
1-2 ft.	\$.65	\$6.00	\$50.00
2-3 ft.75	7.00	65.00
3-4 ft.	1.25	11.00	100.00

C H E R R I E S

EARLY RICHMOND—Medium size, clear red, and quite acid. Ripens May and June.

ENGLISH MORELO—Very dark sour cherry; latest to ripen. One of the best cooking cherries. Dwarfish-growing tree. Especially good for garden planting.

MONTMORENCY ORDINAIRE—Large, red, acid, exceedingly productive. Late June.

DYEHOUSE—A sure bearer, largely planted for early market; ripening a week before Early Richmond, which it closely resembles. June.

Sweet Cherries

BLACK TARTARIAN—Large, black, heart-shaped; very juicy and sweet.

BING—Very large, dark brown, almost black; flesh firm, sweet, rich, and delicious. One of the most profitable sorts. July.

GOVERNOR WOOD—Large, round dark, heart-shaped, yellow mottled with red; flesh sweet, juicy and delicious. Fruit hangs well on tree. June.

	Each	10	100
1-2 ft.	\$.75	\$7.00	\$65.00

4-5 ft.	2.00	19.00	180.00

P E C A N S

TEXAS PROLIFIC—Large, rather long; thin shell, fine kernel; bears young, heavy and sure bearer.

SUCCESS—A fine nut of oblong shape, tree making a fine upright growth; a regular producer; you will be pleased with it.

MONEY MAKER—A very popular nut and planted largely by all planters; the tree is a vigorous grower; nuts of good size; paper shell nuts.

BURKETT—Large, almost round, shell thin; flavor excellent; one of the best. Bears young and every year; fine.

SCHLEY—Medium long; pointed, shell thin, meat plump, full, separating easily; quality best.

STUART—Introduced by the late W. R. Stewart, of Ocean Springs, Mississippi. A standard among the high class pecan for commercial orchards. Nuts large, well shaped, and of fine appearance; reasonably thin shell; well flavored. The best pecan for either commercial or home growing.

	Each	10	100
1-2 ft.	\$2.00	\$19.00	\$175.00
2-3 ft.	2.50	22.50	225.00
3-4 ft.	3.00	29.00	275.00
4-5 ft.	4.00	35.00	325.00
5-6 ft.	4.50	42.50	

Seedling Pecan Trees

	Each	10	100
8-10 ft.	\$4.50	\$40.00	\$300.00
6-8 ft.	3.50	30.00	250.00
4-6 ft.	3.00	25.00	200.00
3-4 ft.	2.50	20.00	165.00

The above trees will make you good, clean, long life shade trees, and bear a good crop of pecans almost every year. Easy to grow and handle. Don't forget, they will be pure seedlings only.

G R A P E S

BRILLIANT—A very strong grower; endures all climates well. Clusters large, often shouldered, open to compact. Berries large, light to dark red, translucent with a thin bloom, and very handsome; skin thin, rather tender. Ripe in mid-season.

CAMPBELL EARLY—Clusters very large, with large shoulders; berry black, of somewhat less pulp and better quality than Concord; a very showy, saleable grape of the Concord type. Ripe with Moore Early.

CARMAN—One of the most profitable and popular varieties;

splendid as a table grape as well as for grape juice, preserves and jelly. Cluster very large, sometimes weighing two pounds; shouldered, very compact. Berries medium size, black when fully ripe, of splendid quality. Ripe in July.

IVES—Bunch and berry medium in size, dark purple color; very acid until fully ripe, a good ordinary variety. Midseason.

DELEWARE—Small, clear red, and of the very finest flavor; a standard of excellence for table grapes and for marketing. Last of July.

MOORE EARLY—Very large, early, black, of the fine quality; a fine market grape, very healthy and prolific.

CONCORD—The best known of all varieties of grapes; large, black; suited for the table or market. Ripe in July.

NIAGARA — Large, greenish white; semi-transparent; quality good; a seedling of Concord; successful over a wide range of territory. Midseason.

FREDONIA—Vine vigorous, hardy, very productive, resistant to powdery mildew; canes long, numerous, thick, straight; buds open with Concord, thick; flowers fertile, with long upright stamens, leaves large, round, black, skin thick, medium in toughness; separating from the flesh, pigment red, abundant, flesh greenish white, tender, solid, mild.

	Each	10	100	1,000
One-year-old vines	\$.40	\$3.50	\$25.00	\$200.00
Two-year-old vines65	6.00	50.00	400.00

SPECIAL GRADE COMMERCIAL PLANTING GRAPE VINES

These vines will be one and two-year-old, light to very light tops; good rooted cutting, safe to plant into commercial vineyards, in the following varieties: Concord, Campbell Early, Moore Early, Ives, Fredonia and others.

100	500	1,000
\$15.00	\$65.00	\$120.00

BLACKBERRIES

EARLEST HARVEST—Very early. Fruit medium in size; juicy, tender, mild and good. It has a long fruiting season, carries well, and is especially good for canning.

MCDONALD—One of the best blackberries grown. It is really a cross between the blackberry and the dewberry, combining the firmness and quality of the blackberry with the size, earliness and productiveness of the dewberry. The berries are large, and of good quality, enormously productive. Ripens very early. McDonald requires a pollenizer in order to develop perfect berries.

DALLAS—A Texas berry, large, black, firm and a strong grower. Ripens in midseason.

BLOWER—An old time variety grown more in the north and eastern part of the country; said to be very good; late.

EL DORADO—A good grower, heavy canes, more or less upright, hardy and will please you; a late variety. Some of them should be in your planting.

	Each	100	1,000
One-year-old	\$.15	\$7.50	\$70.00

DEWBERRIES

AUSTIN—Berries are much larger than those of any other dew-berry or blackberry. It requires no trellis or stakes. The fruit is jet black and of very superior quality and flavor.

LUCRETIA—Fruit very large, luscious and sweet; perfectly hardy, healthy, enormously productive, very prolific.

	Each	100	1,000
One-year-old	\$.15	\$7.50	\$70.00

RASPBERRIES
THE LATHAM RASPBERRY

We have added to our list this fine new berry; one of the best, and should be planted for both home use and the market. We believe you will find it to be far better than any other variety for every use of the raspberry fruit. Plants will make good growth, multiply rapidly. Its fruit is large and showy, of a good flavor, red in color.

CHIEF—The New Red Raspberry. Here is a wonderful Red Raspberry that is forging ahead as fast as did its illustrious ancestor, Latham, and has just as important a place to fill for it is ten days earlier than Latham, ripening at a time when Red Raspberries bring the most on all markets. Chief was originated at the Minnesota State Fruit Breeding Farm.

CUMBERLAND—The largest of all the black caps; coal black berries; very firm and the quality of the very best; excellent shipper. Bush is a strong grower, stocky canes, and unusually prolific. Midseason.

KANSAS—Very large, black; a berry of splendid quality for general use and popular on the market.

ST. REGIS (Red)—A variety whose ripening period covers several months. The main crop is borne in the spring and another good crop late in the summer and early fall. The berries are large, juicy, sweet.

	Each	100	1,000
One-year-old	\$.15	\$8.00	\$70.00

CURRANTS

FAY—Very large, red; fine flavor; a great market currant; universally praised. Bush is a cross between Cherry and Victoria, and very prolific.

PERFECTION—Large; upright; red, quality very superior, rich, mild, subacid. Bush good grower and healthy foliage; long clusters and productive.

	Each	10	100
Number One Vines	\$.50	\$4.50	\$40.00

GARDEN ROOTS

ASPARAGUS — We offer varieties that are successful in the Southwest.

HORSERADISH—

RHUBARB—Valuable for the back yard of the city dweller or for the garden of country folks. Rhubarb will grow anywhere in any temperate zone. Makes delicious pies and sauces.

	Each	10	100
One-year-old	\$.30	\$2.50	\$16.00
Two-year-old35	2.75	20.00

 THE YOUNGBERRY

We have grown the Youngberries over the last 20 years here in our own fields, and have found them to pay us more net money per acre, for the cost put into them, than any berries we are raising now. Once planted you have them for years.

	Each	25	50

 NEW BOYSENBERRY

RESERVE NOW

One of the best, said to be a cross of the Raspberry and Dewberry, ripens about one week after Youngberries begin moving. One of the best. You will like them.

No. 1 Strong Tip Rooted Boysenberry Plants—

Plants 15c each; 100, \$7.00; 1,000, \$65.00; 5 at each rate; 50 at 100 rate; 500 at 1,000 rate.

 GOOD STRAWBERRY PLANTS

In making your plans for planting you will, without a doubt, be very careful to obtain the right kind of plants; for who wants to plant a field of strawberry plants, spend good money for cultivation and caring for it, unless he feels sure that the results will be satisfactory? You will find our plants to be grown, dug, packed right and will please you.

EVERGREENS

Home builders of the Southwest have not realized the importance of properly planting evergreens. Every landscape should contain a few evergreens and shrubs to give the effect of life in the dead of winter. On some types of houses an entire foundation planting of evergreens is most attractive when located properly by giving them the right kind of treatment. You will be delighted with the results.

CEDRUS DEODARA—A magnificent tree attaining a height of from 50 to 75 feet, its lower branches gracefully sweep the ground, giving the tree a stately appearance; foliage is feathery, and of a pleasing blue-green color. Succeeds admirably in this climate, and is to this section what the Koster Blue Spruce is to the North. Considered the most handsome of all growing specimen conifers. The young trees are beautiful and feathery, becoming more dignified and stately with age.

BROAD LEAF EVERGREENS

Broad leaf evergreens are truly the South's greatest floral treasure. No other section of our country can enjoy the striking landscape effect which their use produces. Many varieties lend beauty both with bloom and luxuriant evergreen foliage.

EUONYMUS — Hardy ornamental plant with rich, handsome foliage, luxurious growth, naturally beautiful shape, can be made any desired form by trimming, has glistening round leaves, 18-24 inches, bare rooted, \$1.50 each; 24-30 inches, bare rooted, \$2.00 each; 36-42 inches, bare rooted, \$3.00 each. If wanted balled add 25 cents per plant.

NANDINA—The delicate foliage of the plant is a brilliant dash of gorgeous orange-red, or crimson color in the winter; it is dense and stocky in growth—dwarfish growth with many of the plants late summer and fall showing a growth of berries same color as the leaves. It will please you. Price: 12-18 inches, \$1.50 each; 18-24 inches, \$2.00 each; 24-30 inches, \$2.50 each; 3-4 feet \$3.00 each. All balled and burlapped.

ABELIA GRANDIFLORA—One of our most beautiful, popular and satisfactory broad-leaved Evergreens. The graceful drooping stems and branches are covered with dark, glossy leaves which in winter assume a metallic green. From the middle of May until frost this plant produces an immense quantity of tubular-shaped white flowers about an inch long, which are borne in clusters. During the growing season it is advisable to pinch off the ends of the long shoots. This will make the plant dense and compact. For single specimens, for groups, or for a hedge we cannot too strongly recommend this plant. 2-3 feet, \$2.00 each; 3-4 feet, \$2.50 each; 4-5 feet, \$3.00 each; balled and burlapped.

NEW RED LEAVED JAPANESE BARBERRY—It is similar in all respects to the green leaved Japanese Barberry which is so popular, but the foliage of this new variety is of a rich, lustrous, brandy red, similar to the richest red leaved Japanese Maples. All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure to the sun. 1-2 feet, \$1.50 each; 2-3 feet, \$2.00 each; 3-4 feet, \$2.75 each. If wanted balled and burlapped, add 25 cents per plant.

BARBERRY THUNBERGH—Neat and dense in growth. Produces yellow flowers in summer, followed by scarlet fruit, borne in dense profusion, clinging throughout most of the winter. Leaves color to scarlet and gold. Bare roots, 1-2 feet, \$1.00 each; 2-3 feet, \$1.50 each; 3-4 feet, \$2.00 each. If wanted balled and burlapped, add 25 cents each.

EUONYMU PATENTS (Berry Type)—A good broad leaf plant, and will not winter kill; should be in every planting. Price: 12-18 inches, \$1.50 each; 18-24 inches, \$2.00 each; 24-30 inches, \$2.50 each; 30-36 inches, \$3.00 each; 36-48 inches, \$3.50 each. Balled and burlapped.

LUCIDUM COMPACTA—Leaves are very thick and waxy, the upper surface being highly glossed of black-green color and underside of a lighter shade. Plant is very compact, heavily branched, ideal in form and development. Wax Privet grows in shade or full sunlight. Price: two-year-old plants, 18-24 inches high, \$2.00 each; 24-36 inch plants, \$2.50 each; 3-4 feet, \$3.50 each; 4-5 feet, \$5.00 each; balled and burlapped.

HYDRANGEA

PAICULATI GRANDIFLORA—A fine hardy shrub, growing to the height of eight to ten feet; flowers white, great pyramidal panicles a foot long produced in August or September, when most other shrubs are out of bloom.

SNOWBALL—(*Opulus Starile*)—An old time favorite. Rather tall growing; foliage large and coarse; showy flowers in large white "balls" in April.

2-3 ft.	1.25	12.00
3-4 ft.	1.65	14.00

EVERGREEN HEDGE

AMOR RIVER PRIVET—For the South it is far superior to all other privets, as the Amor River Privet retains its foliage throughout the entire year. It is without doubt the most popular evergreen hedge plant of the day. It is of rapid growth, adapts itself to almost any soil not too arid or extremely wet.

ROSES

ETIOLE DE FRANCE—A brilliant shade of clear red; large flowers on long stiff stems.

KAISERIN AUGUSTA VICTORIA — Ivory white; large, superb; double; probably the very best white Rose grown.

ETIOLE DE LYON — Golden yellow; very sweet scented and sometimes called bush Marechal Neil.

PINK RADIANCE—Brilliant, rose pink; large full flowers, very fragrant; an excellent rose.

RED RADIANCE—One of the best, hardiest, red roses. Flowers in bud and full bloom are perfect. Bright, rich red color.

LUXEMBURG—Golden yellow, thrifty grower.

ETIOLE DE HOLLAND—Bright dark red. Highly perfumed,

and can be classed as one of our best dark red roses. Strong grower and a profuse bloomer.

BETTY UPRICHARD—Salmon flower, tinged orange. Outside copper with orange suffusion. Remarkably attractive. A large, open long-lasting and very fragrant flower.

FRAU KARL DUSCHKI—One of the purest white roses known and sometimes known as Snow Queen. Very large blooms with immense petals of splendid substance. Splendid foliage and blooms on good, strong, stiff stems. Upright, strong.

COLUMBIA — Large size, very fragrant. Color, clear imperial pink, deepening as it opens to glowing pink.

SUNBURST—Orange-copper or golden orange and golden yellow—all intense shades giving an extremely brilliant effect; long pointed buds on long stems, with splendid keeping qualities as a cut flower; also fine for bedding.

LADY HILLINGDON—A splendid new yellow variety, one of the most prolific cut flowers. Color deep apricot yellow, varying to orange.

LA FRANCE—The oldest Hybrid Tea, with lovely, double, pale pink blooms, more deliciously scented than any other. It is still desired by many who remember its unsurpassed fragrance.

TALISMAN—This vividly colored rose is receiving much publicity and it actually does merit all of the fine things that are claimed for it. The coloring is truly marvelous being a mixture of orange and yellow in irregular proportions, varying so much that no two flowers are alike. Fairly double, borne on long stems; exceedingly sweet scented. When you have once seen a perfect bud of Talisman, you cannot rest until you have it in your garden.

PRESIDENT HERBERT HOOVER—The latest of the new multi-colored roses, combining many shades of cerise-pink, flame scarlet and yellow; the long buds being beautifully formed, opening slowly, and possessing a delicious fragrance. It is certainly quite different from ordinary rose varieties and we have been much impressed with its brightly colored flowers.

Two-year-old field grown bushes: Each 90 cents; 10, \$8.00; 100, \$75.00.

CLIMBING ROSES

CRIMSON RAMBLER—The original of the group; dwarf, bushy, profusely blooming; its compact clusters of bright crimson; flowers continuously.

CLIMBING KAISERINA—Elegant, pure white, robust vine.

EXCELSIOR—The flowers are very double, produced in large trusses of thirty to forty; and almost every eye on a shoot produces clusters. Intense crimson-maroon, the tips of the petals tinged with scarlet.

ETIOLE DE LYON—Yellow.

RADIANCE—Pink.

RADIANCE—Red.

All our rose bushes will be field grown, two-year-old plants that will please you.

Each, \$1.00 10, \$9.00 100, \$75.00

We have only about 2,000 Rose Bushes for the season, all field grown plants, 2-year-old roots, one-year top, regular 2-year-old bushes. Send your orders early for shipment. They will be appreciated.

SPECIAL OFFER NO. 1

One-half acre home orchard of nice fruit trees to be planted twenty feet each way. One-year-old, first class stock, consisting of ten Early Wheeler, ten Hale, ten Elberta peaches; five Red June, five Delicious, five Red Winesap apples; and five Keifer pears. This will give you fifty-five trees to ripen over the entire season. Shipped by express for only \$22.00. You will be more than pleased with them.

SPECIAL OFFER NO. 2

Twenty-five grape vines in a nice assortment of popular varieties, No. 1 grade, one and two year plants. If desired you may select varieties. These vines for only \$7.50. Plant them now, nothing will pay you better.

SPECIAL OFFER NO. 3

Eighteen assorted trees and plants for your back yard or garden; four apple trees, two plum trees, six peach trees, two pear trees, two cherry trees, and two grape vines, two years old and the fruit trees 3-5 feet, nice clean stock that will be sure to please you. This all for \$10.00, so send us your order while you can still obtain nice stock for this low cost.

SPECIAL OFFER NO. 4

Do you want to plant a back lot or small plot in good Peach Trees that with good care and cultivation will come into bearing the third year? Send us only \$4.50 and fifteen assorted trees will be sent to you, one year stock, about one foot in height. A good commercial grade tree in two or three varieties of your own selection. Also, will send you for \$4.00, eight Apple and two Pear Trees, varieties selected from booklet. If you need a few trees at a very small cost, do not overlook this offer.

SPECIAL OFFER NO. 5

We have a surplus of Spirea Van Houtti and are making this offer to our customers. Twenty nice two feet plants for only \$8.00. This is a nice plant for foundation planting of your home or for use as hedge. These will grow fast and in a short time will be blooming and will last for years. If you need good shrubs you cannot afford to pass them up at 40 cents each.

SPECIAL OFFER NO. 6

For only \$18.00, we will send you twelve assorted specimen plants in the following evergreens, balled in earth, packed F.O.B. Higginson: four Baker Pyramidal, two Excelsiors, four Irish Junipers, two Pfitzer Junipers, spreading type, all 18 to 24 inches. Plants are well developed, ready for the planting of your home. You will find these plants to be of a grade that usually sells for double the amount asked above. If you can use twenty-four of them, the price will be \$35.00. Place your order now while you can get good plants at this price.

NOTICE

All shipments made by mail will be and travel at the Customer's risk; our responsibility ends with delivery to the Post Office. Claims for error or shortage must be made within 10 days after receiving the shipment; if shipped by express or freight, see that your shipment, bale or box, when received is in good shape; if not have it shown on your paid freight or express receipt.

Freight—Express—Parcel Post—Or Use Your Discretion

We want to call your attention to all of the items listed in this book and the very low prices made on the stock, and by comparison you will find much under what many of the other good nurseries are asking today, for the same goods, so while good Trees and Plants can be bought for so little, we hope to have the pleasure of receiving your order promptly for what you need. If any further information is wanted, ask us for it. It will be a pleasure to answer your inquiries.

TREATMENT OF TREES, ETC., THAT HAVE BEEN FROZEN IN THE PACKAGE OR RECEIVED DURING FROSTY WEATHER

Put them unopened in a cellar or some other cool, protected place, free from frost, or cover them up heavily or entirely with earth until they are fully thawed out, then they can be unpacked and planted or placed in trenches until convenient to plant.

Treated in this way they will not be injured by freezing.

SUITABLE DISTANCES FOR PLANTING

	Feet		Feet
Apples, Standard	..20 to 40	Grapes6 by 8
Apples, Dwarf 6 to 8	Currants3 by 4
Pears, Standard	...18 to 20	Gooseberries3 by 5
Pears, Dwarf10 to 12	Raspberries, Red	.3 by 6
Peaches18 to 20	Raspberries, .Blk.	4 by 6
Nec'rines & Ap'cots	18 to 20	Blackberries3 by 8
Cherries, Sweet	...18 to 20	Str'berries in row	1 by 4
Cherries, Sour18 to 20	Str'berries in beds	1½ by 1½
Plumbs18 to 20	Aspa'gus in beds	.1 by 1½
Quinces 8 to 10	Aspa'gus in fields	1 by 3

NUMBER OF TREES AND PLANTS ON AN ACRE AT VARIOUS DISTANCES

1 x 1 ft.43,560	5 x 5 ft.1,742
2 x 1 ft.21,780	6 x 6 ft.1,210
2 x 2 ft.10,890	8 x 8 ft. 680
3 x 1 ft.14,520	10 x 10 ft. 435
3 x 2 ft. 7,260	12 x 12 ft. 302
3 x 3 ft. 4,840	15 x 15 ft. 193
4 x 1 ft.10,890	16 x 16 ft. 170
4 x 2 ft. 5,445	18 x 18 ft. 134
4 x 3 ft. 3,630	20 x 20 ft. 108
4 x 4 ft. 2,722	25 x 25 ft. 69
5 x 2 ft. 4,356	30 x 30 ft. 48
5 x 3 ft. 2,178	33 x 33 ft. 40

The number of plants required for an acre, at any given distance apart may be ascertained by dividing the number of square feet in an acre (43,560) by the number of square feet given to each plant, which is obtained by multiplying the distance between the rows by the distance between the plants. Thus, strawberries planted 3 feet by 1 foot gives each plant 3 square feet or 14,520 plants to the acre.

THE REASONS WHY YOU SHOULD BUY YOUR FRUIT TREES, FRUIT PLANTS AND OTHER NURSERY STOCK FROM US

All of our trees and plants are State Inspected and will please you in every way, and your order will have attached to it a copy of our inspection certificate from our State Plant Board.

We have been in the nursery business for many years, thereby attaining a full and complete knowledge of what varieties are giving best satisfaction in our trade territory, also of the best mode of propagating and growing stock, and of handling and caring for it when transplanting.

We are not making a specialty of growing a few sorts, such as apples, peaches, and cherries, but have a general nursery, thereby enabling the purchaser to select from a complete assortment of fruits, deciduous and evergreen trees, flowering shrubs, vines, roses, bulbs, etc., that are of superior quality and less cost than the same stock can be secured from other nurseries.

Our location is in the center of a great fruit-producing country. New sorts are continually being tested and either placed on the list as being worthy or discarded, thus enabling us to obtain the very best approved varieties.

We are located at the foot of the Ozark hills in the heart of the famous White County, Ark., strawberry district, on the Missouri Pacific Railway and Chicago, Rock Island and Pacific Railway, two largest railroad systems in the country, making our railroad facilities for quick transportation for perishable goods one of the best. We are enabled to ship direct to many points without risk of delay in transferring stock from one railroad to another. We are also on Highways 67 and 11.

We have a modern up-to-date plant, packing shed, 90 feet wide and 200 feet long, our water system, lights, trucks and cars, tractors, and use 15 to 18 head of mules to help carry on the work of growing trees and plants, using a tract of over 1,500 acres of land, with some 200 acres devoted to a general line of field grown trees and plants, and increasing the number of new acres each year. This, the present owners and manager has built up in the short time of 29 years. Surely this will speak well of the quality of our goods and the service we have given to our old customers in the past and it is our expectation to continue to do everything we can to please you in the future. Give us your order—it will have our personal attention, and we are sure it will please you.

APPLE TREES

BUY YOUR APPLE TREES NOW, WHILE
YOU CAN GET THEM AT THE VERY
LOW PRICES BELOW

The wonderful Delicious, Red and Yellow varieties, with many others for only \$15.00 per 100 trees. These will be nice clean trees of a commercial planting tree, that with good care and cultivation, should come into bearing the 3rd to 5th year from planting. Order 100 or more now. You will find other varieties in front part of the book. For the coming season we have over 100,000 apple trees.
